Prerequisites

There are no prerequisites for The ACE Advanced Programme, but it is recommended that The ACE Programme is completed first as a lot of the information in it is required to fully understand the ACE Advanced Programme.

Complete Core Competencies

The New Zealand Qualifications Authority (NZQA) requires that all unit standards in the National Certificate in Community Support (Core Competencies) (Level 3) are completed **before** the last unit standard of the (Residential) (Level 3) qualification is completed.

- The ACE courses are designed so that this requirement is met.
